

VIRGINIA CAREER WORKS

BAY CONSORTIUM REGION

08/01/2022 - 08/31/2022

**Bay Consortium Website
Report**

This is a summary of the monthly website maintenance performed by IDEAS to continue to maintain the same level of security, optimization, and effectiveness present on the launch day of your website. Each month, we perform various tasks (most of which go unnoticed) to aid us in the goal of maintaining your website to the best of our ability.

Optimization

This section is a summary of tasks we will perform to increase the level of performance and optimization needed to provide a good user experience, allow SEO to thrive, and to keep your website clean and tidy. This section is more of an FYI than anything.

Updates

This section details all of the software that is being kept updated to power your website. This list is more of an FYI for you, so you understand how many small pieces go into powering your website. We always ensure everything is updated and stable.

Analytics

This section is a snapshot of your website analytics that we have running 24/7 that helps us understand how your website is being used by users. It is

important to be aware of popular pages, how users are accessing your site (Google search, referrals from other websites, or direct access by typing in your website's URL in the top browser bar), and popular keywords. We use these analytics to suggest changes to you that will help improve the SEO and user experience each month.

Security

This section details the work we perform to keep your website safe and secure. Your website is encrypted with a security certificate, but we also run security sweeps to prevent viruses and other malware from compromising the integrity of your website.
