INTRODUCTION

This document is the dynamic blueprint for the sustainability and growth of the region's talent pipeline. It is the product of intensive discussions by the Workforce Development Board's (WDB), Strategic Planning Committee members and feedback from staff, partners, and stakeholders. This plan lays the foundation for the organization's business plan, which will outline key actions and resources required to execute the objectives and strategies found in this plan.

During the latter part of 2020, the Bay WDB began the process of developing this strategic plan. With the shifting environment due to the pandemic of 2020, the board decided that developing a new set of goals and strategies for the next 3-years would not maintain relevancy. Instead, this plan has a time horizon of eighteen months, through June of 2022. The planning process included a Strategic Planning Committee made up of WDB members and other key community members. The Committee met four times to examine current labor market data that would inform strategic challenges over the next 18 months. Focus groups of businesses, WDB board members, partners, and job seekers were conducted to solicit their perceptions of what the workforce system's challenges might be over the next 15 to 18 months.

The Planning Committee is to be commended for their imagination, dedication, and perseverance throughout this process. We have a vision of where we want to be, an assessment of where we are now and a set of criteria to measure our progress. We have defined the values that describe how we do business and developed strategies and priorities to move us from where we are to where we want to be.

The strategic direction, goals and strategies included in this plan are a response to our understanding of what our customers value most about the workforce system, and current opportunities and challenges for offering a high-quality system of talent development to the area's businesses.

In response to stay-at-home orders across Virginia, our organization had to quickly shift to virtual operations and deal with other challenges to our capacity. We made the shift quickly and staff rapidly adapted and learned. With a fresh perspective on our mission, understanding of what we do well, and the environment in which we operate, the Bay WDB will pursue the following strategic priorities:

- Coalesce regionally to align workforce development with economic development efforts in each subregion.¹
- Develop and deliver services to individuals to expand the talent pipeline of youth and adults.
- Develop and promote career pathways as a framework for moving individuals to sustainable wages.

A plan is of little value by itself. The strategic plan is a broad road map and there is still much to be determined relative to implementation. This document is the framework to continue our

growth and ensure the sustainability of our high-performance, customer-focused organization that continues to benefit all stakeholders –our customers, our partners, and the community.

** This plan was reviewed by both WDB members and Local Elected Officials in 2021 to determine the needs of the Workforce Development Area. With a few minor changes the plan was extended through June 30, 2023
