Bay Consortium Workforce Development Board, Inc.
One-Stop Committee Meeting
Draft Minutes
Tuesday, July 14, 2020
10:00 a.m.

The One-Stop Committee met Tuesday, July 14, 2020 via Zoom.

Call to Order: Debbye Warf called the committee meeting to order at 10:00 a.m.

Roll Call: Present were Debbye Warf, Rebecca Mann, Nikole Cox, Cherlanda Sidney-Ross, and Tracy Harrington. In addition, present was Jackie Davis, Steven Golas, and Katlyn Moss, WDB Staff. A quorum was present.

Public Input: There was no public input.

Approval of Minutes: There was a motion to approve the January 14, 2020 minutes. The motion was seconded and approved.

New Business: Jackie Davis reviewed the Board Manual with members, specifically the One-Stop Committee description. She asked that if there were any changes that members would like to be made to let her know before the Board Development Committee meeting. Nikole Cox asked if the MOUs had been updated to include precautions for COVID. Jackie Davis said that during the annual review for cost allocations and other issues will include COVID precautions.

Old Business: Steven Golas reviewed the Work Experience Procedure Policy. He noted that the changes were made as a result of monitoring. Changes include replacing “wages” with “stipend” and defining who would complete the learning plan. A motion was made to take the Work Experience Procedure Policy to the full Board, which was seconded and approved. Steven Golas reviewed the Youth Incentive Policy. He noted that the changes were made as a result of monitoring. The wording “up to” was removed from the rewards to make them definitive and equal across the Workforce Development Area. A motion was made to send the Youth Incentive Policy to the full Board, which was seconded and approved. Steven Golas discussed the Self Sufficiency Policy with members, noting that the only change was the update with 2020 numbers. A motion was made to send the Self Sufficiency Policy to the full Board, which was seconded and approved. Steven Golas reviewed the Trade Adjustment ACT and WIOA Dislocated Worker Co-Enrollment Policy with members. He noted that he had removed wording that instructed non WIOA staff, and added that if a client is issued a waiver that an assessment must be done. A motion was made to send the Trade Adjustment ACT and WIOA Dislocated Worker Co-Enrollment Policy to the full Board, which was seconded and approved. Jackie Davis let members know the Virginia Career Works Fredericksburg Center was open by appointment only and staff was working to question and temperature check clients before coming in. Jackie Davis reviewed the Strategic Priorities with members. Tracy Harrington recommended that a quick report on how to handle objectives with COVID in case it is requested.

Other Items for Discussion: There were no other topics for discussion.

There being no further business, the meeting was adjourned at 10:30 a.m.

Respectfully submitted,

Katlyn Moss

Bay Consortium Workforce Development Board

Policy Number: 20-07

Effective Date: November 4, 2020

Revised Date: -

Title: Bay Consortium Workforce Development Area System Administrator
Role and Responsibilities Policy

PURPOSE

This policy has been developed to provide the Bay Consortium Workforce Development Area (BCWDA) and their service providers with guidance regarding the use of Virginia Workforce Connection (VaWC) and the role of the System Administrator. This document provides guidance for maintaining correct and accurate data within the VaWC as well as providing the appropriate staff access to the VaWC.

DEFINITIONS

Virginia Workforce Connection (VaWC)

VaWC is the management system of record used for all data collection and reporting in Virginia.

BACKGROUND

The VaWC is the system of record for the Workforce Innovation and Opportunity Act (WIOA) Title I Programs and Services in the Commonwealth of Virginia, therefore, it is important that system security and data integrity is maintained.

Only authorized users should be granted access to the VaWC. Users are limited to specific roles and levels of access privilege. System access control is achieved through user IDs that are unique to each individual user and which provide individual accountability. Staff are prohibited from sharing or distributing their assigned VaWC system login or password information.

WIOA State System Administration

State System Administrative functions shall be maintained through the Virginia Community Colleges System (VCCS) office in Richmond, Virginia. Only the State System Administrators have access to create new WIOA staff users in the system. The State System Administrators serve as the point of contact for VaWC questions and issues. The State System Administrators address questions and assist in making data corrections that the BCWDA System Administrators and WIOA Title I field staff are unable to complete. The State System Administrators shall also communicate system needs, requirements and corrections with the software vendor, Geographic Solutions. The State System Administrators will meet periodically with the BCWDA System Administrators to communicate system issues and improvements, as well as obtain feedback about system needs.

The current VaWC State System WIOA Administrators:

Brian Long – blong@vccs.edu – 804-819-1688

Melanie MacDonald - mmacdonald@vccs.edu – 804-819-3331

Role of the BCWDA VaWC System Administrator

The BCWDA System Administrators have the highest level of VaWC System access for their specific BCWDA. This group can enter, add, and update WIOA Title I data for program participants in the BCWDA. The BCWDA System Administrators can correct most errors made by staff and they are not bound by the 21-day system data entry limitation. The BCWDA System Administrators cannot delete any data from the system, but they do have the ability to void the status of services that were keyed in error. Any error that the BCWDA System Administrators cannot correct should be immediately communicated to and reviewed with the State System Administrators.

The BCWDA System Administrators are also responsible for submitting new WIOA Title I staff user forms to initiate VaWC system access, as well as advising the State System Administrators when BCWDA staff system access needs to be activated, modified, or revoked.

The current VaWC BCWDA System WIOA Administrator:

Steven G. Golas – sgolas@baywib.org – 804-333-4048

GUIDANCE

New WIOA staff access to the system:

Only the State System Administrators can create staff user accounts. The BCWDA System Administrator will initiate this process by having the new staff member complete the most recent version of the system access form (the most recent form was updated April, 2019). The staff will complete the form, review and sign the Information Systems Security Access Acknowledgement Agreement. This form must also be reviewed and signed by the staff member's supervisor and BCWDA System Administrator. The completed form is then submitted to the State System Administrator for processing. The form may be submitted by mail, faxed, or scanned and e-mailed. It is recommended that a copy of these forms be retained by the BCWDA and these forms be kept in a locked and secure location. The State System Administrators will establish the WIOA Title I staff user account and retain a copy of the access form. These forms shall be kept and maintained in accordance with the standard WIOA documentation requirements.

Once the new staff user account has been established, the user account and temporary password will be communicated to the BCWDA System Administrator. The BCWDA System Administrator will share this information with the new staff member and insure they have the required information to access to the system. Upon successful login, the system will require the staff member to create a unique and secure password. The password must be at least 8 characters and should contain at least one uppercase letter, one lowercase letter and one number.

User login information and password information must not be listed together in any documents and password information is not to be e-mailed.

WIOA Staff account modification or inactivation

When a WIOA Title I staff account needs to be modified or terminated, the BCWDA System Administrator must communicate this need immediately to the State System Administrator. This includes conditions where staff roles and responsibilities change as well as when employment is terminated. The BCWDA System Administrator will contact the State System Administrator immediately when a WIOA staff member's employment is terminated. The State System Administrator will make the necessary changes to the WIOA staff account and contact the BCWDA System Administrator to advise them of the change.

The State System Administrator shall conduct a quarterly review of all active accounts with each BCWDA System Administrator to ensure that only authorized staff has access to the system. The State System Administrator will send a report to each BCWDA System Administrator. This

report will include a list of all the WIOA Title I staff within the BCWDA that have access to the system, their access level and the date on which they last accessed the system. The BCWDA System

Administrator will review the report; confirm the staff are attached to the appropriate access level and that they still require access to the system. The BCWDA System Administrator will return the report to the State System Administrator along with any details related to findings or required account changes, such as account inactivation or change in access level. The State System Administrator also shall review the access level of all WIOA Title I staff that have access to the system. Any staff account that has not been accessed within a 90-day period shall be automatically inactivated.

Data Corrections

Local WIOA service provider staff will communicate the need for any data correction they are unable to complete with their specific BCWDA System Administrator. Any corrections that cannot be completed by the BCWDA System Administrator should be communicated to the State System Administrator for review. The State System Administrator shall review the validity of the correction and communicate the appropriate action and/or outcome with the BCWDA System Administrator.

Most information can be communicated through e-mail; however, it is extremely critical that secure information, such as Social Security Numbers, not be listed in e-mailed communications. When identifying clients in e-mail communications, staff should identify the clients by their system-generated State Identification number. Please see VaWC WIOA Title I Data Change Request VWL and the most recent Data Change Request Form for the process and details.

Bay Consortium Workforce Development Board

Policy Number: 14-01

Effective Date: July 1, 2014

Revised Date: November 3, 2020

Title: Case Management, Case Notes, and IEP/ISS Update and Review Policy

PURPOSE

This policy provides WIOA service providers guidance regarding the uniform electronic documentation of participant records, required naming conventions for participant documents uploaded into the system of record, adding and removing of participant documents to the system, standards for case note quality, and timely data entry requirements.

- VWL 13-07: Virginia Workforce Connection (VaWC) system of Record and Entry of Case Notes in VaWC, Including Guidelines
- VWL 16-03: Standardized Participant File Format

DEFINITIONS

Virginia Workforce Connection (VaWC): The management system of record used for all data collection and reporting.

PIRL: The Participant Individual Record Layout (PIRL) is a standard reporting format that contains the Workforce Innovation and Opportunity Act (WIOA) common data elements and is used to report participant characteristics to the United States Department of Labor (USDOL-ETA).

BACKGROUND

Section 185 of the WIOA requires recipients of Title I funds to keep records that are sufficient to prepare reports on program performance and outcomes, and permit the tracking of expenditures to adequately ensure that funds have not been spent unlawfully. This guidance applies to electronic file storage and documentation imaging standards in the administration of WIOA Title I programs and other federally funded grant programs.

GUIDANCE

System of Record The VaWC is the “System of Record” with regard to Federal reporting for local WIOA Title I programs (Youth, Adult, and Dislocated Worker) and other USDOL-ETA grant-funded programs in the Commonwealth of Virginia. Currently, the VaWC is used to capture information on enrollment, service delivery, and performance data. The required documentation used to verify program eligibility and support service provision must be maintained in the VaWC. A newly accessible feature in VaWC, the electronic document imaging and storage system, will allow staff or local areas to facilitate the upload of supporting documentation and allow local areas to transition to paperless record keeping.

The use of electronic records will:

- Eliminate the need for storage areas and storage costs associated with paper files;
- Save supply costs;
- Provide for an easily accessible, single point of access for file review;
- Reduce staff time accessing hard copy documentation;
- Ensure more secure storage of sensitive information;
- Eliminate lost or misfiled paper documents;
- Improve the consistency of file documentation.

Electronic Case Files

Beginning December 1, 2020, and moving forward, all WIOA Contractors must record and document activities for all new participants enrolled in WIOA Title I (Youth, Adult, and Dislocated Worker) programs, and applicable discretionary grant programs, in the VaWC to ensure compliance with federal and state statutes, regulations, and policies.

The electronic records shall include the following in the appropriate section of the VaWC:

- Program applications;
- Eligibility determinations;
- Activity and service codes;
- Individualized Employment Plan (IEP) or Youth Individualized Service Strategy (ISS) utilizing the VaWC system generated planning module;
- Case notes;
- Case closure;
- Outcome (Exit) information;
- Follow-up;
- Documentation supporting eligibility, service delivery, and closure.

The electronic records will be made available to any staff from the USDOL-ETA, State auditor, or VCCS monitor and BCWDB program staff who requires access to carry out their official duties. Information will be made available in the VaWC system for new WIOA Contractor staff after completing the system access form.

Timely Entry of Data and Documentation into the VaWC

The VaWC serves as the basis for reporting to USDOL-ETA through the WIOA PIRL. Delays in data entry can adversely affect the quarterly and annual performance of the state and the local workforce areas, and result in inaccurate federal reports.

To address the impact of delayed data entry, ***all transactions (eligibility, receipt of services, outcomes, exit, and contact with participants) must be entered into the VaWC within fourteen (14) business days from the completion of the process.*** For example, once the customer has been determined eligible and has received their first service, the participation information must be entered into VaWC within 14 business days. The Primary Indicators of Performance are based on the exit outcomes of these individuals. It is imperative that accurate information is entered into the State's data management system in a timely manner in order to generate appropriate reports at the State and Federal levels, as well as Bay Consortium Area Reporting; (including documentation to support credentials or employment attainment).

The WIOA Contractors compliance with the 14-business day rule will be reviewed by the BCWDB monitor, as well as state and federal WIOA Compliance Monitors and instances of noncompliance will be included in the Bay Consortium monitoring report as a finding.

Documentation Uploads

Starting December 1, 2020 and moving forward, all documentation for new program participants shall be uploaded into the VaWC to create electronic records. Document uploads shall be within the -14- business day timely data entry requirement. Documents will also be uploaded from the files of current active participants enrolled on or after July 1, 2020. BCWDB staff will select the appropriate verification item, type, and document description from a drop down-menu for each document. WIOA Contractor Staff shall also "tag" uploaded documents with keywords, which will allow documents to be found using keyword search. To ensure consistency, WIOA Contractor staff shall follow the naming/tagging conventions outlined in Attachment A: WIOA Title I VaWC Document Naming Conventions.

Case Notes

Case notes add context to elements in the electronic case file that are not clearly evidenced, such as participant factors affecting eligibility, important details about services provided to customers, and to inform the reader about the customer's progress, lack of progress and/or obstacles associated with the services and/or referrals provided. Case notes compliment entries made in VaWC, to provide further explanations of service provided. Therefore, all case notes must be keyed in VaWC.

Case notes do not take the place of entering data in the appropriate sections of VaWC. For example, a case manager should not enter service information (service codes, start and end dates) in a Case Note rather than in the Create Activity section. Performance related information should be entered in the appropriate sections, such as Services, Measurable Skills Gains, Credential Attainment, and/or Follow-up sections. Case Notes are a planning tool and a source of documentation and information that can be used by case managers, supervisors, and monitors. WIOA files can be chosen for review by multiple entities such as the Virginia Board of Workforce Development (VBWD), the USDOL-ETA, Virginia Community College System (VCCS), and other organizations; therefore, accuracy and completeness in case notes are very important.

Case notes should tell the “who, what, where, when, and why” of the customer's needs and services. Case notes describe the actions taken and the reasons behind those actions, along with the expected results. Consider the use of case notes as the means to tell a factual story of the customer. No opinions or comments of the case manager should be included. Anyone, including the customer, should be able to pick up the file and follow the story of what is happening with the customer.

All case notes must be entered into the VaWC within fourteen (14) business days from the date of contact.

IEP/ISS Update and Review

In an effort to review participants' changing needs and goals on a regular basis, a review of the Individual Employment Plan (IEP)/Individual Service Strategy (ISS) is necessary to address client needs and focus the plan in an appropriate direction. With this in mind the BCWDB is initiating an IEP/ISS update/review policy.

A review and update of the IEP/ISS is required every ninety (90) days at a minimum for ALL programs (Adult, Dislocated Worker, and Youth) with the following stipulations:

- The review will be documented in a VOS Case Note with the subject line reading “90 Day Update/Review”.
- The Case Note will clearly state what change(s) are needed in the IEP/ISS.
- If there are no changes/updates to the IEP/ISS clearly state this fact in the Case Note.
- The Case Note will be printed and signed by the participant and case manager and retained in the Case Notes section of the client file.
- A corresponding objective & goal will be created in the Plan in VOS

- Original hard copy of the signed IEP/ISS as well as all review/update signed case notes must be retained in the client file for review and monitoring purposes.

Medical/Disability Records

Medical and disability related information, also known as protected health information (PHI) under the Health Insurance Portability and Accountability Act (HIPA) of 1996 must be kept confidential and separate from the VaWC electronic case record. Such information shall be kept in a paper file in a secure, locked location. A case note in VaWC shall contain a generic explanation of the information, how it is related to eligibility, employment, and/or training opportunities, and identify the secure location of the information. (i.e., “Participant wants to be a mechanic, but needs to pursue other employment or training. See confidential file.” or “Individual meets local adult eligibility priority of service group. See confidential file.”).

Records Correction and Deleting Documents

Records in the VaWC that contain errors must be corrected to ensure accurate reporting to USDOL-ETA. Requests for data correction shall first be submitted to the Bay Consortium Area System Administrator (*Steven Golas*) for review and completion utilizing the approved data correction form from the WIOA Title I Administrator, VCCS. Any corrections that cannot be completed by the Bay Consortium Area System Administrator should be communicated to the State System Administrator via the BCWDB for review. The State System Administrator shall review the validity of the correction and communicate the appropriate action or outcome to the Bay Consortium Area System Administrator. Record corrections in third-party systems are the responsibility of the local area staff using those systems and are processed according to the local board’s policies or procedures manuals.

Only under limited circumstances will staff be allowed to delete documents from an applicant’s electronic file. The process of deleting a document will be performed by the Bay Consortium Area System Administrator or State System Administrator. Program staff shall submit a request for the deletion along with the reason for the deletion. The State System Administrator reviews requests for deletion of documents and if determined appropriate will perform the deletion.

The WIOA Title I Administrator will work with the vendor of the VaWC software (Geographic Solutions) to ensure that participant documents that are stored in the system are appropriately deleted after the required retention period for the documents has expired.

Confidentiality of Data or Information and Required Release Forms

Data or information acquired by an agency under a confidentiality agreement, to be used exclusively for statistical purposes, shall not be disclosed by an agency in identifiable form for any use other than an exclusively statistical purpose. The use of this information is prohibited except with the informed consent of the respondent (Public Law 107-347 Title V Section 512[b][1]). **All providers will have a release of information form signed and dated by the participant and the case manager.** The form shall state that the participant’s information may be used for reporting purposes because of federal regulations associated with the benefit of federal funds and that the participant’s personal information will remain confidential. The release form will be uploaded into the participant file in VaWC to validate that the participant agrees to the release of information for reporting purposes. The standardized form will also be made available by

the BCWDB staff and may be used as a stand-alone form or incorporated into other release forms used by the BCWDB.

Legal Status of Electronic Documents

Electronic records submitted or maintained in accordance with procedures developed under this title, or electronic signatures or other forms of electronic authentication used in accordance with such procedures, shall not be denied legal effect, validity, or enforceability because such records are in electronic form.

The purpose of this policy is to describe the general expectations and responsibilities for professional staff performing Case Management support for participants enrolled under WIOA programs being administered through the Bay Consortium Workforce Development Board (BCWDB).

DRAFT

ATTACHMENT A

WIOA Title I VaWC Document Naming Conventions

WIOA Service Providers uploading documents should name and tag their documents according to the naming convention identified below to facilitate ease of document identification and ensure consistency among staff.

WIOA Service Providers reviewing documents uploaded by individuals as part of the WIOA Title I pre-application should tag the documents according to the naming/tagging conventions below to ensure ease of document identification.

Criteria	Documents TAG ID
<p>Age:</p> <ul style="list-style-type: none"> (Birth certificate, Passport, State-issued Driver’s License or ID, school records, DD-214, Green Card, etc.– must show the date of birth) 	<p>Examples: Birth Cert Driver’s License Passport</p>
